

Using a Star Chart

(The activity corresponding to this datasheet begins on page 538 of the textbook.)

1. Locate the following stars on the star chart in Appendix B of your textbook:
Betelgeuse, Rigel, Sirius, Capella, and Aldebaran.
2. What constellation is each star in?

Betelgeuse: _____

Rigel: _____

Sirius: _____

Capella: _____

Aldebaran: _____

3. Which of these stars appears closest in the sky to Polaris, the North Star?
