

Lesson 1 project

1. Using Getty Images, find a photo that interests you and copy it to your desktop/Google Drive.
2. Create a new document in Photoshop with the specs given above.
3. Open the Getty Image you selected and Copy - Paste it into your document. If you need to, enlarge it (using the EDIT > TRANSFORM > SCALE techniques being sure TO HOLD DOWN THE SHIFT KEY AND ENLARGE BY DRAGGING A CORNER HANDLE.)
4. Apply the three tasks you learned in Lesson 1 to the image:
 - a. Make a selection of part of the image and change the CURVES adjustment to something different.
 - b. Use the Type Tool to enter in some text.
 - c. Use the brush tool to add some "flair."
5. Using the type tool, add your name and course period to the project.
6. Print you project. (You do not need to save to your Google Drive, but you can if you want.)
