

Parents of Ceramics I students

September 2013

During this semester of Ceramics, please be advised that students will occasionally use "Notability" to submit work to be graded. The project will be forwarded to my Saint Viator email account and I will grade it and send a reply with their grade back to them. This allows students to document progress at various stages and get feedback during the process of working in ceramics.

If you want to be included in this process, please have your student include your email address in the CC line of the original Notability file they send to me.

I am looking forward to using this procedure to create a better process of documenting progress.

Mr. William Faltinoski

Parents: please sign below and have your student return it to Mr. Faltinoski to acknowledge your awareness of this procedure.
