

## Research Project

Teacher Name: Mr. Hogendorp

Student Name: \_\_\_\_\_

| CATEGORY | Abstract.....   | Literature Review   | Procedure.....  | Data   | Analysis/Conclusion  | Works Cited   | Structure.....   |
|----------|---|---|---|--|--|---|--|
| 15       | Abstract is clear and concise. It contains defines commonly used terms & gives a brief summary of the results.                      | Literature review is clear. Proper citation format is used. Internal citations are 100% correct.      | Clearly written in past tense and in paragraph form. Same research with no questions can be done.   | Data is written in paragraph form & is comprehensive and complete. Mathematical calculations are 100% correct. | Conclusion drawn is consistent with the data. A clear connection between the data and conclusion exists.   | Works cited is perfect. There are no mistakes.                    | Proper grammar is used. Entire project is written in third-person.                                 |
| 14       | Abstract is clear and/or is missing one of the following: *purpose *definitions *summary of procedure *summary of results           | Literature review is clear. Proper citation format is used. There is 1 internal citation mistake.     | Clearly written in past tense in paragraph form. Same research with few questions can be done.  | Data is written in paragraph form & is comprehensive. There is only 1 error in the calculations.               | Conclusion drawn is consistent with the data. A connection between the data and conclusion exists.         | There is one type of mistake in the works cited section.          | Proper grammar is used. The use of second and/or first person is minimal.                          |
| 12       | Abstract is clear and/or is missing two of the following: *purpose *definitions *summary of procedure *summary of results           | Literature review is clear. Proper citation format is used. There are 2-3 internal citation mistakes. | Written in past tense and in paragraph form. Exact research can be done with only some questions.   | Data is written in paragraph form & is comprehensive. There are only 2-3 errors in the calculations.           | Analysis is clear. Weak connections exist between the data and conclusion.                                 | There are 2-3 types of mistakes in the works cited section.       | Proper grammar is used. There are several uses of first and/or second person.                      |
| 10       | Abstract is vague and unclear and/or missing four of the following: *purpose *definitions *summary of procedure *summary of results | Literature review is clear. There are 6-7 internal citation mistakes.                                 | Written in present tense. It is unclear and vague. Reader must ask many questions to conduct the same research or procedure is NOT written in paragraph form. | Data is written in paragraph form. Important info is missing. There are only 2-3 errors in the calculations.   | Analysis is vague and unclear. Weak connection exists between the data and conclusion or it is inaccurate. | There are 6-7 types of mistakes in the works cited section.       | Most of the project is written in first or second person and/or there are many grammatical errors. |
| 5        | Abstract does not apply to the project and/or makes no sense.   | Literature review is not clear and/or there are more than 8 internal citation mistakes.               | Written in present tense. It is very unclear and vague. Reader cannot conduct the same research.  | Data is not written in paragraph form. Data is unclear and vague. Data is not complete.                        | Analysis is inconclusive and/or cannot be drawn from the data.   | There are 8 or more types of mistakes in the works cited section. | The entire project is written in first or second person and/or there are many grammatical errors.  |
| 0        | No abstract is present.   | No literature review is present.  | No procedure is present.  | No data is present.  | No analysis is present.  | No works cited is present.  | Project is unreadable and does not make any sense.   |
