

### **Here are the states and how they will be tested:**

- Use the front of your home textbook to see where the states are located. I am providing a blank map for home practice. You may run copies, or label all the states 1-50 and have your child practice by writing the state name to the corresponding number on paper (this is how their map tests are given)
- Also- please check out my Quia site for links to websites that offer great practice for identifying the states.

**1<sup>st</sup> test:** New Jersey, New York, Vermont, Maine, Pennsylvania, Maryland, Massachusetts, Connecticut, New Hampshire, Delaware, Rhode Island

**2<sup>nd</sup> test:** the states from test one AND: Tennessee, Indiana, Florida, Alabama, West Virginia, South Carolina, Ohio, Virginia, Georgia, Kentucky, North Carolina
