

Final Project Guidelines

Based on the study sheet provided, the student will develop a project according to the following criteria:

Part A, the test:

- Oral Comprehension -5 items
- Grammar -5 items
- Reading -5 items

Please no more than 15 questions. No subquestions. No online links, this will be a pen/paper quiz.

Part B, a simulated OPI interview:

- Create a situation card
- Create a rubric in which you explain what you expect and how you will evaluate the student

My rubrics

Technical aspects:

Test design _____

Validity _____

Reliability _____

Test purpose _____

Method _____

Social aspects _____

Overall:

	10	8	7	5
Guidelines	The test follows the guidelines above.	The test seems to follow these guidelines.	The test is missing sections or does not follow certain aspects.	The test does not follow the guidelines. It is either too short or too long.
Instructions	Explanations are clear and written in a plain language.	The student can infer the instructions with little or no problem.	There is ambiguity in the instructions. Some items are not clear.	The instructions are vague and confusing.
Aesthetics	The test is	The test is well-	The test tries to be	Too many

	appealing to the eye and the illustrations are balanced.	organized.	something it is not. Too heavy on illustrations.	illustrations or too simplistic in its approach.
Academic Honesty	The items were creation of the student.	Some items seem to have been created by someone else.	Part of this test seems to have been created by someone else.	The test is a copy of another test found online.
