

Ch. 14 - Making and Using Electricity

L. 3 - What are some sources of electricity? - page 496

1. energy (dictionary definition)
 - the ability of something to do work
 - whenever something gets warmer, or cooler energy is being changed from one form to another

2. potential energy
 - energy an object has because of its position or condition
 - examples:
 - *a stretched rubber band
 - *a rollercoaster at the top of a hill

3. kinetic energy
 - the energy of motion
 - can be measured
