

Chapter 8

Measurement

GOALS

You will be able to

- estimate, classify, measure, and draw angles
- demonstrate rules for the sum of the angles in triangles and quadrilaterals
- develop and use rules for calculating the perimeter of a polygon, the area of a rectangle, and the volume of a rectangular prism
- solve a problem by solving a simpler problem

These students are sending school supplies and food to countries overseas. What are some ways to measure the boxes?
