

# Printing Graphics II (read all directions carefully)

Attached are a collection of special effects for Photoshop that I want you to learn how to do. When you finish each one print it out. When you finish all of them, give them to Mrs. Hill or put them in your orange basket.

In order to access the photos for each one -

- from Photoshop > file > open > browse to the desktop folder called Photoshop Enhancements
- open Photoshop Manual
- open Samples folder

When finished with all of these mini lessons I want you to take the "Film Strip" effect and design an 11 x 17 poster for Spirit Week. You can use photos from the internet and/or pictures of students.

## **Theme: Hollywood**

Use the information from the posters around school as to what day is which, etc.

I will give a special compensation for the ones that Mr. Davenport decides to use. So, try for that WOW factor.

The poster is due on the Monday I get back.
