

*¡Felicidades!* You have decided to study intermediate Spanish. That puts you in an elite group, as many college-bound students stop taking foreign language after Level 2. Level 3 Spanish is both challenging and rewarding. You will be proud as your Spanish skills continue to develop. Meanwhile, in order to make the challenge of Level 3 more manageable, I have assembled some materials and activities I would like you to work with during the long summer months. These activities will both prepare you for the rigor of Spanish 3 and keep you from forgetting a lot of your Spanish while we are on vacation.

- Most of these activities are **REQUIRED**.
- You will receive points for all required activities.
- All the points you receive will be figured into your first nine weeks grade.
- There are seven modules included in this packet. You will take a quiz on each module during the first three weeks of school. The quizzes will be worth 15-20 points. Consult the syllabus (calendar) below to find out when each quiz will be given. We will practice very little, if at all, for each quiz in class, so it is definitely in your best interest to do both the required and optional practice activities provided at some point over the summer.
- The Quia practice activities for each topic are available now. You can go directly to our Quia summer work page at <http://www.quia.com/pages/srainey/page8>. You can also find a link to our summer work page at SchoolPointe. Go to <http://www.bexleyschools.org/>, click the yellow box at the left labeled **Teacher Web Pages and PowerSchool**, scroll down to **Rainey**, then click **Spanish 3 Summer Work**.
