Practical Assessment for iPhoto

Pages 12 to 106

Students follow the steps mentioned below and complete the required tasks.

Ensure you complete all the requirements and criteria for this assessment.

Slideshow:

1. You are required to create a slideshow and export it as a movie on your computer. Once you are finished you have to present the movie to the teacher.
    a. You are required to create a standard album and drag all the pictures you want to that standard album.
        i. Please make sure you have at least 15 photos in the standard photo.
    b. Make sure you set the music to fit the slideshow so you have no blank spaces in the slideshow.

Calendar:

2. You are required to create a calendar
    a. Choose the starting month to be January
    b. Choose the year to be 2013
    c. Ensure the pictures are in flow and every blank photo section is filled
    d. Choose the setting that you like and export is as a PDF.
    e. When submitting you should submit your calendar in PDF format.

Marks are out of 25 – 10 marks for practical and 15 for written answers and questions.

Greeting cards:

3. You are required to make a getting card
   a. Choose a theme that you like
   b. Please note you should edit the card's text to suit the theme of your greeting car
   c. Drag a photo to set the part that is slotted for a photo
   d. You can use the adjust tool to change the appearance of the photo
   e. Submit your greeting card in pdf format.

Book:

4. Create a standard album to use the photos for a photo book.
5. You can use auto flow to fill in the missing boxes of photos in a photo book.
6. Make sure each photo slot in the photo book has a photo inside it.
7. Use the background menu to apply a background to each page
8. You can use the layout menu to change the number and configuration of the photos on a page
9. Make sure you save the book as a PDF and ready for presentation.
