

Quia - Creating Activities

First, login to <http://www.quia.com/web>

<p>Step 1</p> <p>Can be done 2 ways</p>	<p>From the top left of home screen, select the activities option OR</p> 	<p>Select the activities link, the 2nd option below your profile</p> 
<p>Step 2</p>		<p>Select the activities option box. Select the down arrow and then GO</p>
<p>Step 3</p>		<p>The list of all activity types pops open. Choose the style of activity that best matches your objectives and the ability level of your students.</p>
<p>Step 4</p>	<p>Once you have chosen an activity type, you are provided with a template designed specifically for that activity. The templates are similar, though there are some variations between activity types. You will be given options in the form of buttons. For example, if you want to add additional items, look for the button ADD MORE ROWS.</p> <p>As you complete the template, select only the options needed.</p> <p>Make sure to save. The system will tell you if there are item missing, and give you a chance to fix your work.</p>
