

Frankenstein Theme Paper

Guidelines:

This paper should be 3-4 pages of analysis (please remember analysis is breaking down a large work – novel – into small pieces) of a major theme in the novel Frankenstein. Your final draft should be typed, double spaced in 12 pt. font and turned into Turnitin.com as well as a hard copy in class. You may use your notes and your novel for this assignment. **Any use of other sources not documented will result in a zero.** This is not a research paper and really should not utilize outside sources other than the novel itself – your analysis and overall breakdown of a theme in the novel are what is being looked for. Your paper should have a thesis (main idea) that is stated in the beginning of the paper and is proven throughout your paper.

Due to Turnitin.com:

Due in class:

Topic:

Choose one of the major themes (in class notes) from Frankenstein and follow its progression through the novel. Whenever relevant, demonstrate, through examples and analysis (not summary), how the theme directed the actions of the characters or progressed the plot. Be sure to give sufficient support in the form of examples, quotes etc. Avoid direct summary – I have read the book – you are analyzing what is happening and why in relation to a major idea discussed in the book as well as in class.
