You are picking a number between 1 and 1,000 for your classmates to guess. Please write your number here: _____

You will be given time to sit with your classmates and try and guess their numbers. If your partner guesses a number and it's too low you will want to say _____ or more. If their guess is too high you will want to say _____ or less.

You will want to tally how many guesses it takes for your partner to determine your number.

Your partners name	The number of times you guessed	What their number was(in written form)
