

Page 71: page for absent students

Put yes for Metal? only if the material has "yes" in all 3 columns.

Material	Conduct or	Malle- able	Luster	Metal?
Graphite	yes	no	maybe	
Fishing Weight	yes	yes	yes	
charcoal	no	no	maybe	
Paper clip	yes	yes	yes	
Copper wire	yes	yes	yes	
Foil	yes	yes	yes	
Pop tab	yes	yes	yes	

<u>Metals</u> graphite carbon	<u>Non-metals</u> all the rest
-------------------------------------	-----------------------------------

Properties of Metals

How can you tell if a substance is a metal or non-metal?

Metals are ductile

Metals have Luster

Metals are good conductors

metals are Malleable

metals react with acid

1) Would you use graphite or copper for the handle of a teapot? Carefully explain your answer.

2) I am wondering (what do you still want to know about metals)
