

# I scream, you scream we all scream for ice cream!!!!

Dear Parents,

Very soon our eighth grade science classes will be making ice cream in addition to many other labs that demonstrate physical and chemical changes of matter. These activities really do help bring these difficult concepts "alive" for the students. We will need materials for over 500 students and as you can imagine the cost for supplies becomes very expensive. We would greatly appreciate it if you could assist by contributing any one of the items listed below or by making a small donation. Please send the items with your child by ASAP.

\_\_\_\_\_ Donation of \$5.00-\$10.00 & we'll do the shopping =)

\_\_\_\_\_ Rock Salt (we will need 10 boxes total)

\_\_\_\_\_ Half & Half (quart size) (20 total)

\_\_\_\_\_ Vanilla (8 bottles total)

\_\_\_\_\_ Large gallon size freezer bags

\_\_\_\_\_ Quart size freezer bags

\_\_\_\_\_ Paper Towels

\_\_\_\_\_ Boxes baking soda

\_\_\_\_\_ Boxes Corn Starch

\_\_\_\_\_ 1lb Sugar

\_\_\_\_\_ multi-colored mini marshmallows (6 bags)

Optional Items (but oh so good too!!!)

\_\_\_\_\_ Magic Shell, Chocolate caramel, or butterscotch syrup (labeled with your period number)

\_\_\_\_\_ Various other toppings

Thanks for your help and support!!!  
8th Grade Science Teachers
