Engineering / Architectural Career Project

"Green Architecture"

Step #1: Please read thru the Chapter 2 link found on our classpage
Step #2: Now, visit the "2" links @ the bottom of the page…one for each profession
Step #3: Next, select a careen in either Engineering or Architecture for the lists found on those
 two website before you move onto step #4

 Your Career choice is: _____

Step 4: Now, use the Internet in order to complete the following questions:

 -Give a description on the career that you have choose

 -Why did this career interest you?

 -What are the academic skills necessary to succeed in this career?

 -What is the outlook for job availability after advanced schooling?

 -What are the opportunities for advancement in this career?

 -How many years of advanced school will be required?

 -What are the courses that one would need to complete for this course?

 -How much money can one expect to make in this career?

 -What schools provided training in this field of work?

 -Finally, find one interesting fact or perk about this career.

Step #5: Once you have completed all of your research, prepare a "Google – Slide Show" that you will use while creating your "Screencastify" for us to view.
