

Hey there!!!

Hi! My name is Kira Chevalier, I'm 15 and I'm French (which is basically the whole point of the exchange... heh).

I live in Saint Leger sous Choleat and in Bégrolles en Mauge, yes, **two towns** because my parents are divorced. I've got a little brother, Zack, he is 11 and just started his first year of middle school.

In this letter, I will describe myself so we can learn more about each other before the exchange ☺.

A little about me!

So, I'm pretty much of an **introverted and anxious person** really, and **sarcastic**, but I am also rather **friendly** and very **open-minded**.

About my hobbies and interests, I'm literally a **nerd**. I really like reading, drawing and playing videogames, but I also love to invent and **write** my own stories. I love listening to music as well, I'm more into **rock and metal bands** such as Bring Me the Horizon, Falling In Reverse, Asking Alexandria, Ice Nine Kills or My Chemical Romance (yes, I know, don't judge). As I mentioned before, I really like to **play videogames**, mostly open world games like Genshin Impact or Sky children of the light, but also **horror games** and RPGs. I mentioned I like to **read** as well, I read novels, comics and mangas. My favorite novel series is **Percy Jackson** (I really like Rick Riordan) and, when it comes to mangas, I mostly watch

animes because mangas cost a bit, but I like everything from shōnen to seinen.

I think that's already a bit about my interest, so let's continue...

My favorite subjects at school are English, French, Maths and Physics. I'm not part of any club nor do I do any activities, so yeah...

Also, I'm an atheist, I do not have allergies or any specific diet, so no worries!

About this exchange program, I'm looking forward to discover a new culture, a new country, and just to meet new people in general. I hope we'll spend good time together, and I'll do my best for to spend the best time in France as possible!

Have a nice day, night, month (you get it).

Bye!!!

Kira
Chevalier
