

Hello

My name is Leamus Delphin, I am 15 and a half years old. I will be 16 when you will come in France. I live in the countryside near Vichiers, a small city near Cholet. My mom is Irish and this is the origin of my name. I forgot, her name is Claire and she is an english instructor. My dad is a farmer and his name is Patrice. I also have a little sister called Caitlin, she is 13 and a half. I live with two cats. With my family we live not far away from the farm. Me, I am shy when I meet new people but when I know them well, I am not shy anymore. I am friendly and my friends tell me that I can be humorous. I also like when I eat being a food critic. I play basketball in a club with my friends in under 18. I love watching rugby (I don't support France, I support Ireland) and F1 but I don't like watching soccer. I like playing with lego, I have a whole collection in my bedroom. With lego, I also like cars and tractors. One of my favourite things is playing video games, especially sim games like farming simulator 22. With my friends on week-ends, we like to be in the sports hall watching basket-ball games. At school, I like being with my friends and my favourite school subject is math and english. And I am in boarding school. When I will go to the USA, I want to find out how is school there and I want to discover a new culture. Have a great day and you are welcom home.

Y
Leamus
