

Narración

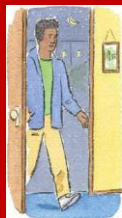

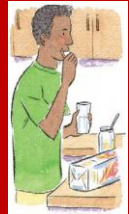

The series of pictures below illustrates a story an outline of which is given in the “Guía.”

Use the picture series as a basic guide to write the story (in Spanish, in the third person) **in which your two characters are Ángel and Cristina.** (Note that Ángel is male and Cristina is female.) Include a short paragraph in which you introduce your characters. Then narrate the story in the **past** using the appropriate verb tenses. Pay close attention to the verb forms. **Give your story a title.**

Use the guide given, but feel free to modify and combine sentences and to include additional relevant details and transitional words to make your story flow smoothly. **Be sure to include instances of both the preterite and the imperfect tenses.**

Here are some words and expressions that you may consider using: **Ayer, el viernes pasado, la semana pasada, primero, luego, y, pero, entonces, mientras, después, por eso, finalmente, por fin.**

Type your story double-spaced putting in the accent marks and other special characters. (See the “Ejercicios y recursos” section of the class page for information on “[How to Type Accents and Special Characters in Spanish.](#)”).

Guía
