

Cell Division

Name: _____

Hour: _____

Across

- 5 Nonviable eggs are called _____ bodies (5)
- 6 The cell organelle which help to pull the cell apart (9)
- 8 Body cells have a _____ or full set of DNA (7)

Down

- 1 The growing phase of a cell before it enters cell division (10)
- 2 Meiosis involves the division of _____ cells (4)
- 3 Gametes have a _____ set of DNA (7)

- 9** A cell which no longer divides is said to be this (8)
- 11** The process of producing sperm cells (14)
- 13** Chromosomes consist of of two sister _____ (10)
- 15** Stage where the spindle fibers pull the chromosomes apart (8)
- 16** Stage when the chromatin moves to the middle (9)
- 17** The center of the cell is the _____ plane (10)
- 18** A chromosome consists of two _____ or halves from each parent (9)
- 4** Stage where the cell divides into two cells (11)
- 5** Stage where the cell prepares to divide (8)
- 7** The protein used to wrap DNA into a helix (7)
- 10** The process of copying DNA during the S phase (11)
- 12** Stage where the nuclear envelop re-forms and the cell begins to divide (9)
- 13** The center of a chromosome where the spindle fibers attach (10)
- 14** The technical name for a body cell (7)
