

Name: _____

Hour: _____

Across

- 2 A form of asexual reproduction that occurs in yeast (7)
- 5 The cause of the Irish potato famine (6)
- 7 Reproductive spores are held within these (5)

Down

- 1 Specialized sacs that form during sexual reproduction (4)
- 2 Club fungi are members of this fungal family (13)
- 3 Substance that composes the cell walls of fungus (6)

- 10 A parasitic disease which can affect both humans and animals passing by skin contact (8)
- 14 The masses of tiny filaments that make up the body of a fungus (6)
- 15 A symbiotic organism made of fungus and photosynthetic algae (7)
- 16 Term that refers to the 'body' of a fungus (8)
- 17 Sac fungus is a member of this group (10)
- 20 Specialized structures that give rise to sporangium (9)
- 22 The common _____ have no septums in their hyphae (5)
- 24 Mushrooms are one of the more common types of _____ fungi (4)
- 25 The _____ fungi only reproduce asexually and most members are parasitic (9)
- 28 Dutch _____ disease was brought to America by settlers who brought their infected apple trees (3)
- 29 Bread mold belongs to this group of fungus (8)
- 30 The powdery _____ include disease causing fungus like ergot & blight (7)
- 31 A fungal disease of rye that can cause violent hallucinations (5)
- 33 Root-like structures which anchor and absorb food (8)
- 4 The fungal disease _____ foot affects only humans (8)
- 6 The classification for the common molds (10)
- 8 The walls which divide the hyphae into segments (5)
- 9 The scar tissue left behind when the cap breaks free of the stipe (7)
- 11 Rows of ribbed structures under the cap (5)
- 12 A stalk which contains the rounded cases that holds the spores (10)
- 13 The first naturally occurring antibiotic to be discovered (11)
- 16 A mutualistic relation occurs between this fungus and tree roots (12)
- 18 The imperfect fungi are also known by this name (13)
- 19 The fungal disease _____ affects corn plants (4)
- 21 The stalk-like structure of mushrooms (5)
- 23 Connects groups of rhizoids together to form the body (7)
- 26 Allows for the passage of digestive enzymes, food, & gases (5)
- 27 Specialized structure of mushrooms that cover & protect the spores (3)
- 32 The fungal disease _____ affects wheat plants (4)
