

The subjunctive is mostly found in subordinate clauses. However, there are some independent uses of the subjunctive mood. "Independent use of the subjunctive" means

that the subjunctive is used as the \_\_\_\_\_ verb in the sentence.

Two independent uses of the subjunctive mood are \_\_\_\_\_ subjunctive and \_\_\_\_\_ subjunctive.

They use the \_\_\_\_\_ tense of the subjunctive to express

a \_\_\_\_\_ in the \_\_\_\_\_ and \_\_\_\_\_ persons.

A negative iussive or hortatory subjunctive is expressed by \_\_\_\_\_ + the \_\_\_\_\_ tense of the subjunctive.
