

Attention 3rd ~ 5th Grade Parents!
Science Fair Fun Is On The Way!!!

*Wish you could start working on your science fair project earlier?
Wonder what the guidelines are for your elementary child? Wonder no more!!!*

Science Fair Projects are due April 9th, 2010.

*There's still plenty of time to select a project you and your child will enjoy working on and creating a presentation that will knock our socks off, but if you want to get a jump on this fun, family activity check us out on the web. The current **Nova Eisenhower Elementary Science Fair Packet** is now available on-line at www.NovaEisenhower.com Download the information Science Fair packet and the template sheet for your mini-board in a PDF format. You can even see pictures of projects from last year to get those creative juices flowing.*

But wait ... there's more!

*Want resources you could review in order to select a great project? Stop by our **Science FCAT** web site at www.Quia.com/pages/amarousky/sciencefcats to find links to great science fair web sites, as well as Quia games to review important science terms and ideas. If your research finds a great resource for our students, you can e-mail us from the Quia web site so we can add the link for others to use.*

Each classroom teacher will be sending more specific information as the Science Fair Deadline comes closer, but we wanted to offer our Nova Families the opportunity to begin their individual project early. If you are unable to download a copy of the Science Fair Packet, please return the bottom portion of this form to your classroom teacher and we will send home a copy of the packet with your child.

The Nova Eisenhower Elementary Science Committee

I'm unable to download a copy of the of the Science Fair Packet and would like a copy sent home with my child.
