

Chapter 5 Section 1 (Last 4 subheadings) Part 2

1. What event in the 1730s and 1740s stressed religious emotion as being more important religious behavior?
2. What famous publication, written by Benjamin Franklin, included such things as calendars, recipes, weather predictions, and star charts?
3. What event in history emphasized the use of reason and science as ways to knowledge?
4. How many more men, percentage-wise, in New England, were literate compared to those in England?
5. What English philosopher argued that people should have natural rights such as life, liberty, and property?
6. Besides wealth, hard work, and land, what else was valued in the colonies?
7. What colleges were founded to train ministers?
8. What minister, during the Great Awakening, terrified people with images of God's anger?
9. The Great Awakening encouraged ideas of equality and the right of colonists to do what?
10. Because of the Enlightenment, colonists began to wonder whether Britain was protecting what?

(Chapter 5 Section 1
