

Name _____
Science _____

Date: _____
Blood Vessels WS

Choices: **Artery** **Capillary** **Vein**

1. Absorption of certain materials occurs here.
2. Contains valves
3. Carries deoxygenated blood from the body
4. Muscular, can feel pulse
5. Smallest blood vessels
6. Carries oxygenated blood to body
7. Most numerous blood vessels
8. Carries blood to the heart
9. Carries blood away from the heart
10. Connects the other two blood vessels

NOW, answer these...

1. Largest vein
2. Largest artery
3. Name the vessel that carries deoxygenated blood to the lungs from the right ventricle.
4. Name the vessel that carries oxygenated blood to the body from the left ventricle
5. Name the vessel that carries oxygenated blood to the left atrium from the lungs.
6. The valve that is between the right atrium & ventricle
7. The valve that is between the left atrium & ventricle
8. The valves between the ventricles & aorta - pulmonary vessels
9. Wall that separates the right & left sides of the heart
10. Average blood pressure of healthy adult
