

Identifying Coordinates on a Number Line

Name the coordinates of the points graphed on each number line – Use set notation.

Graph each set of numbers on the number line.

$\{\dots -10, -9, -8, -7, -5\}$

$\{\text{integers less than } -3 \text{ or greater than or equal to } 5\}$

$\{-2, 0, 2, 4, 6\}$

$\{\text{whole numbers}\}$
