

Find the value of N for each formula. The replacement set for $x = \{3, 5, 7\}$.

1. $N = 3x - 2$	2. $N = \frac{x}{3} + 1$
3. $N = 2x(x - 1)$	4. $N = x^3 - 2$
5. $N = 3x^2 + 1$	6. $N = (3x)^2 + 1$
