

Geometry

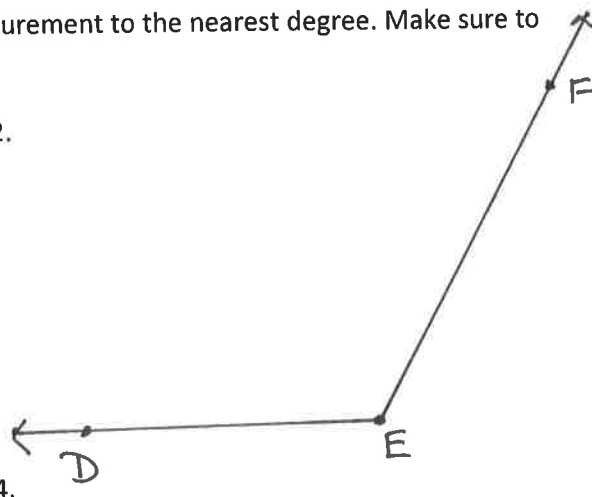

Protractor Practice

Measure each angle using your protractor. Give the measurement to the nearest degree. Make sure to write the symbol for degree after your number!

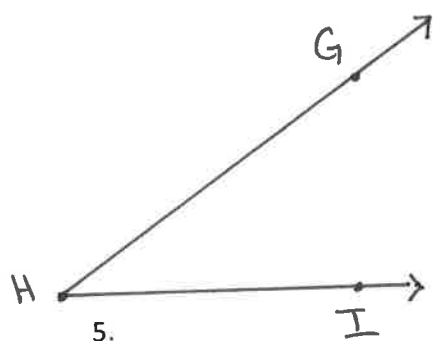

1.

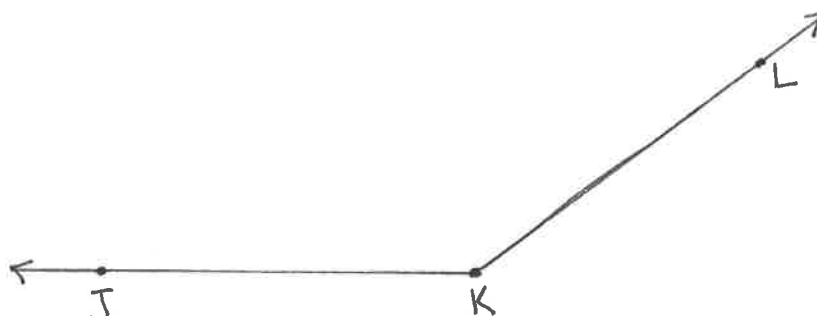

2.

3.

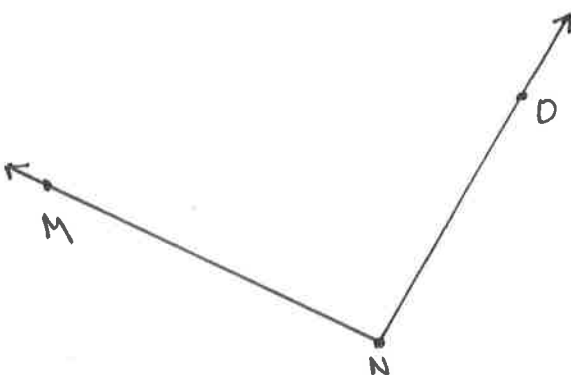

4.

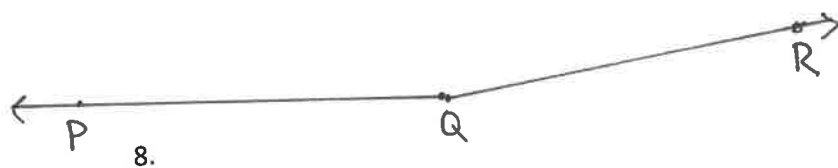

5.

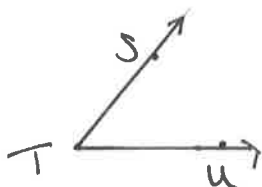

6.

7.

8.

Draw each angle whose measure is given.

9. 60°

10. 125°

11. 180°

12. 120°

13. 90°

14. 75°

15. 134°

16. 25°
