

|2.

A diagram showing two intersecting lines. The top-left angle is labeled 1 and the top-right angle is labeled 2.

A diagram of a W-shaped polygon, which is a hexagon with two horizontal parallel sides. The interior angles at the two bottom vertices are labeled 1 and 2.

A diagram showing a zigzag line with three segments. The first segment goes up and to the right, the second goes down and to the right, and the third goes up and to the right. Angle 1 is the interior angle at the top vertex, and angle 2 is the interior angle at the bottom vertex.
