

Identify the indicated type of triangles.

1. right

2. obtuse

3. scalene

4. isosceles

Identify the indicated type of triangles if $\overline{AB} \cong \overline{AD} \cong \overline{BD} \cong \overline{DC}$, $\overline{BE} \cong \overline{ED}$, $\overline{AB} \perp \overline{BC}$, and $\overline{ED} \perp \overline{DC}$.

1. right

2. obtuse

3. scalene

4. isosceles
