

### Reading to Learn

Refer to the hierarchy diagram at the right. Write *true*, *false*, or *not enough information* for each statement.

1. All mogs are jums.
2. Some jebes are jums.
3. All lems are jums.
4. Some wibs are jums.
5. All mogs are bips.

6. Draw a hierarchy diagram to show these classes: equilateral triangles, polygons, isosceles triangles, triangles, and scalene triangles.
