To the Instructor: If any condition listed on the medical history form is checked by the student, you are required to individually interview the student. If, as a result of the interview, you are unsure whether or not the condition is a contraindication to diver training send the student to a physician for a medical exam. In the event that referral to a physician is necessary, provide the student with this NAUI Medical Form and transfer the student's medical history and any notes to the copy to take with them to the physician.

To the Physician: This person is an applicant for training in diving with self-contained underwater breathing apparatus (SCUBA). This is an activity, which puts unusual stress on the individual in several ways. A list of contraindications is on the NAUI website at <http://nau.org/pdf/medical99-00.pdf> for your reference. The student applicant's medical history below was provided during the enrollment process.

To the Student: I understand that skin and scuba diving are strenuous activities involving significant pressure changes and that normal, healthy heart, lungs, ear and sinus, are essential prerequisites for my safety and well-being. I hereby confirm that to the best of my knowledge my circulatory and respiratory systems and body air spaces are healthy and normal and that I have no severe emotional or neurological problems or communicable diseases. I understand that I need to seek unconditional approval for diving from a licensed physician if I am uncertain as to my physical fitness for the rigors of diving.

Write Y (yes) or N (no) next to all of the following, and **explain under remarks, any yes answers.**
