Midterm Outline

Part 1 -

Constant of Proportionality

Distributive Property

Equations

Identifying functions

- From graph
- From mapping diagram

Initial Value (y-intercept)

Linear functions

- Writing
- Identifying

Rate of change

Slope

Part 2-

Distributive Property

Expressions

- Writing
- Reading

Equations

Factor by GCF

Fractions (adding, subtracting, multiplying, dividing)

Inequalities

- Writing
- Solving
- graphing

Integers (adding, subtracting, multiplying, dividing)

Simplifying Expressions
