

The Plan:

1. Take notes on the video and power point - KEEP THESE NOTES!!
2. Choose a path of tasks.
3. Complete your path of tasks to add up to the desired number of points:

First Period (and Helen ☺)	Second Period
500 points - C	600 Points - B
600 points - B	700 Points - A
750 points - A	800 Points - H

4. Complete the tasks for everyone.

5. Present your work. Your oral reports of everything you did will take place during the week of May 20, 2013 - beginning on May 21st. We will decide the order of presentations on May 17, 2013 by drawing sticks. All written work and presentations are due that day. If you do a project with another person, the project is due on earliest day. (i.e., if Sally and Steve do a project together, and Sally's due date is Tuesday and Steve's is Thursday, the project is due on Tuesday.)

A couple of rules:

1. You can't switch paths. If you get into this project and decide you don't like your path, you have until April 30 to present (to the class and me) why you want to switch. We will vote on your request - so make your presentation a good one!

2. You can do certain tasks with partners - you just split the points among the participants. (i.e., if you do a 300 point project with 3 other people, you each get 75 points)

3. All partners get the same grade - so choose your partners wisely.

4. You must be working every day during class - or at least not impeding or distracting the work of others. May 21st will be here before you know it!
