Actividad 4

Your teacher is using a map and an alphabet/number grid to plan a class trip to Spain. The five dots on the grid represent cities in Spain where your group will stop. Listen as you hear the first letter/number combination, as in the game of Bingo. Find that dot on the grid and label it "1." Next to it, write the name of the city. After you hear the second letter/number combination, find the second dot and label it "2," writing the name of the city next to it, and so on for the rest of the dots. Connect the dots to show the route of the class trip. You will hear each phrase twice.

Actividad 8

Luisa, the host of your school's radio station talk show, is interviewing four new students. As you listen to the interview, write down one thing that each student likes to do, and one thing that each student does not like to do. You will hear the entire question and answer session repeated. You will hear this conversation twice.
