**Answers to linkers board game**

1. Neither my brother nor my father has a black bicycle/ has black hair.
2. Despite having a lot of homework, Dana managed to relax last night.
3. She likes the new campus, although she sometimes gets lost.
4. How do you know my uncle?
5. After leaving the building, you should turn off the light.
6. Brian goes home early, while his boss stays until midnight.
7. Unless I eat soon, I will die!

**Instructions:**

- 1) Project the game board onto the SmartBoard.
- 2) Explain that there are 7 sentences hidden in the board. Each sentence starts with a number 1 – 7 and there is a full stop next to the last word in a sentence.
- 3) To make a sentence, students have to link each square going - up/down – right/left – or diagonally - but they cannot go across a picture square or symbol square. They cannot jump over a square.
- 4) Get one student to come to the SB to draw a line from one word to the next to see if they can do it and see if the other students agree with the grammar.
- 5) Divide the class into two teams. Give out copies of the boardgame to pairs of students and ask them to draw lines to compose other sentences. They don't have to do them in order!
- 6) Each team takes it in turn to come to the board and draw the lines for the sentences they have made.
