

- a. Nasion
- b. Glabella
- c. Acanthion
- d. Gonion
- e. Inion
- f. Outer canthus
- g. Orbitomeatal
- h. Interpupillary
- i. Glabellomeatal
- j. Acanthiomeatal
- k. Glabelloalveolar
- l. Infraorbitomeatal

- _____ 1. Line extending across the front through both eyes
- _____ 2. Angle of the mandible; lateroposterior aspect of the mandible
- _____ 3. Line extending from the EAM to the smooth elevation between the superciliary arches
- _____ 4. Line extending from the glabella to the anterior aspect of the maxilla
- _____ 5. Posterior surface of the occipital bone; mental point
- _____ 6. Midpoint of the frontal nasal suture
- _____ 7. Line extending from the EAM to the outer canthus
- _____ 8. Smooth elevation between the superciliary arches
- _____ 9. Line extending from the EAM to the midpoint of the anterior nasal spine
- _____ 10. Line extending from the EAM to the inferior margin of the orbit
- _____ 11. Midpoint of the anterior nasal spine
- _____ 12. Lateral aspect of each orbit; where the two eyelids originate

Labeling.

- _____ 13. Nasal bone
- _____ 14. Mental protuberance
- _____ 15. Frontal bone
- _____ 16. Ethmoid bone
- _____ 17. Mandible
- _____ 18. Maxilla
- _____ 19. Sphenoid bone
- _____ 20. Temporal bone
- _____ 21. Mental foramen
- _____ 22. Parietal bone
- _____ 23. Zygoma

Labeling.

- _____ 24. Parietal bone
- _____ 25. Sella turcica
- _____ 26. Sphenoid wings
- _____ 27. Maxilla
- _____ 28. Frontal bone
- _____ 29. Occipital bone

- _____ 30. Crista Galli
- _____ 31. Foramen magnum
- _____ 32. Greater wing
- _____ 33. Lesser wing
- _____ 34. Anterior clinoid process
- _____ 35. Occipital bone
- _____ 36. Cribriform plate
- _____ 37. Diploe
- _____ 38. Parietal bone
- _____ 39. Foramen ovale
- _____ 40. Orbital plate

Labeling.

- _____ 41. Orbit
- _____ 42. Nasal septum
- _____ 43. Maxillary sinus
- _____ 44. Inferior orbital rim
- _____ 45. Frontal sinus
